

SUMMER INTERNSHIP REPORT

Student Details

Name: RUTURAJ PADHY

Roll Number: 23CSE249

Regd Number: 23UG010333

Department: COMPUTER SCIENCE AND ENGINEERING

Semester: 7th

University: GIET UNIVERSITY, GUNUPUR

Organization Details

Organization Name: 1M1B

Department: AI & ML

Internship Duration: From May to June

Industry Mentor: Manasa Pidatala

Internship Objective

To gain practical knowledge of Artificial Intelligence, Responsible AI, and sustainability concepts, and understand how AI technologies such as Agentic AI and RAG can be used to solve real-world problems. To develop hands-on experience with modern AI tools and techniques through practical learning activities. To enhance problem-solving, analytical thinking, and the ability to build responsible and effective AI-based solutions.

Work Performed

- Learned AI and Responsible AI concepts.
- Explored sustainability aligned with the UN SDGs.
- Studied Agentic AI and Retrieval-Augmented Generation (RAG).
- Completed internship modules, assignments, and practical activities.
- Participated in technical learning sessions and AI-based problem-solving.

Skills Acquired

Technical Skills: Artificial Intelligence, Responsible AI, Agentic AI, RAG, AI for Sustainability, Prompt Engineering.

Soft Skills: Communication, Problem Solving, Teamwork, Analytical Thinking, Time Management.

Tools/Platforms: IBM Skills Build, 1M1B Learning Platform.

Learning Outcome

- Gained practical knowledge of AI, Responsible AI, sustainability, and emerging AI technologies while improving problem-solving and analytical skills.
- Enhanced understanding of real-world AI applications and industry best practices.
- Improved collaboration, communication, and project development skills through practical learning activities.

Conclusion

The internship enhanced my understanding of AI and sustainability and provided valuable industry-oriented learning. I am grateful to 1M1B, IBM Skills Build, AICTE, and GIET University for this opportunity.
